EXPERIENCE

Brainvire Infotech

Software Developer

Jun 2022 – Present

Mumbai, India

- Developed and deployed a Computer-Based Testing (CBT) platform using **Node.js**, **NestJS**, and **Express**, ensuring scalability and high performance.
- Implemented **Kafka** for real-time messaging, enabling efficient handling of high traffic and seamless event-driven data processing.
- Integrated secure payment services, ensuring robust authentication and secure transactions with optimized error handling mechanisms.
- Designed and implemented a Role-Based Access Control (RBAC) system to enhance security and enforce granular user permissions.
- Engineered a multi-tenant architecture, improving performance using **Redis** caching and ensuring efficient data synchronization via **Kafka**.
- Developed **RESTful APIs** and enhanced microservices architecture, reducing response times by **40%** and improving system reliability.
- Optimized database queries, reducing execution time and improving performance for SQL and NoSQL databases.

SKILLS SUMMARY

Languages: JavaScript, TypeScript, SQL

Front-End Technologies: HTML, CSS, Tailwind CSS, React, Redux

Frameworks & Libraries: NestJS, Express.js, Node.js

Databases: MongoDB, MySQL, Redis

Architecture & Design: MVC, Microservices, Monorepo, OOP

Messaging & Streaming: Kafka, BullMQ, RabbitMQ

Cloud Services: AWS S3, AWS Cognito

Version Control: Git, GitHub

ACHIEVEMENTS & CERTIFICATIONS

Received the **Spot Award** at **Brainvire** for outstanding performance and contributions. [\[Certificate\]](#)

Completed **SQL and PostgreSQL: The Complete Developer's Guide**. [\[Certificate\]](#)

Completed **Harkirat Live 0 - 100 Course**. [\[Certificate\]](#)

PROJECTS

Edulicious - EdTech Platform

[Demo](#) — [Source Code](#)

- Developed a comprehensive EdTech platform using **MongoDB**, **Express.js**, **React**, **Node.js** to support online learning and course management.
- Designed distinct features for **3 user roles (Admin, Instructors, and Students)**, featuring over **5 modules** for user authentication, course creation, and review systems.
- Integrated **Razorpay** for secure payment processing, enabling a **20% increase in course enrollment**.
- Engineered **10+ RESTful APIs** for seamless access to course data, user reviews, and enrollment details.
- Enhanced user experience by utilizing **Cloudinary** for storage and **Chart.js** for interactive visualizations, boosting engagement by **25%**.

EDUCATION

Kirti College (Mumbai University)

Master of Science (Computer Science); CGPA: 8.96/10

Mumbai, India

2020 – 2022

- Courses:** Data Structures and Algorithms, Object-Oriented Programming, Operating Systems, Computer Networks, Database Management System, Statistics, Probability.
